

# users.getInfo

This method returns information about a user. You can only use it to get info about users who have installed your app.

To get the name and profile image of other users in Flock, see [users.getPublicProfile](#).

The method endpoint is <https://api.flock.co/v1/users.getInfo> and follows the [method calling conventions](#).

## Parameters

Name	Type	Required	Description
token	String	Yes	Authentication token for the user.

## Response

A single [User](#) object.

```
{
  "id": "u:cfc76545-3400-4864-892a-513a9f4ae409",
